

# ASSIGNMENT # 1

STUDENT Saad Saied

ID 200415258

CS 215

Q1.

Q2

The website I chose for this question is my banking website. I bank with TD and it's one of the most convenient online service providers out there.

## USABILITY REQUIREMENT

The main page of this site is the menu which is very well grided and lets you do banking step by step. The design flow and navigator are well planned and meets the usability requirement with quality.

## DESIGN PRINCIPLE

The site supports hierarchical navigation and is very easily understood when looking for a specific tab to perform.

The design also is a step by step process example you start from the main account on site smoothly transfer you to your desired task. The site follows the SE's procedure efficient, error free, easy to use, Exceptional and it is very engaging and interacting with its users.
